

Ladies and Gentlemen,

The Defense Supply Center Philadelphia (DSCP) Consumer Safety Office (CSO) is releasing the following notice. If warranted, the CSO will initiate an ALFOODACT.

**SUBJECT:** DSCP Alert 009-2006, Cadbury® products imported from England may contain salmonella bacteria

**DSCP Issue Date:** 29 June 2006

At this time we cannot exclude the DOD as a customer of products associated with subject recall. We are currently investigating to determine the extent and location of product under recall.

**Health hazard alert - various Cadbury products imported from England may contain salmonella bacteria**

26.jun.06

Canadian Food Inspection Agency

[www.inspection.gc.ca](http://www.inspection.gc.ca)

OTTAWA - The Canadian Food Inspection Agency (CFIA) and Cadbury Schweppes are warning the public not to consume the various Cadbury products, manufactured in Britain, described below because these products may be contaminated with Salmonella.

All lots and Best Before dates of the following products, imported from England, are affected by this alert:

- 250g Cadbury Dairy Milk Turkish
- 250g Cadbury Dairy Milk Caramel
- 250g Cadbury Dairy Milk Mint
- Cadbury Dairy Milk 8 Chunk
- 1kg Cadbury Dairy Milk
- 105g Cadbury Dairy Milk Button Easter Egg
- Cadbury Freddo 10p

These products may have been distributed nationally by various importers. The CFIA is working with the importers to remove the affected products from the marketplace. This CFIA alert is initiated in response to a recall by Cadbury Schweppes Plc, England. The recall was initiated after it was discovered that these products may have been contaminated with Salmonella. There have been no reported illnesses associated with the consumption of these products. Food contaminated with Salmonella may not look or smell spoiled. Consumption of food contaminated with this bacteria may cause salmonellosis, a foodborne illness. In young children, the elderly and people with weakened immune systems, salmonellosis may cause serious and sometimes deadly infections. In otherwise healthy people, salmonellosis may cause short-term symptoms such as high fever, severe headache, vomiting, nausea, abdominal pain and diarrhea. Long-term complications may include severe arthritis. The CFIA is monitoring the effectiveness of the recall.

For more information, consumers and industry can call one of the following numbers:  
Cadbury Consumer Relations Line 1 866 782-3267;

CFIA at 1 800 442-2342 / TTY 1 800 465-7735 (8:00 a.m. to 8:00 p.m. Eastern time, Monday to Friday).

For information on Salmonella, visit the Food Facts web page at

[www.inspection.gc.ca/english/corpaffr/foodfacts/fftoce.shtml#tipcon](http://www.inspection.gc.ca/english/corpaffr/foodfacts/fftoce.shtml#tipcon).

For information on receiving recalls by e-mail, or for other food safety facts, visit our web site at

[www.inspection.gc.ca](http://www.inspection.gc.ca).

**DSCP INSTRUCTIONS:**

- (1) Secure in a "Medical Hold" status to provide assurance of no further issue/sale/use of the item.
- (2) Return recalled product to manufacturer through the appropriate distribution channels.
