

Item: **Regular, Kreamsicle cookies, Crisp (Type I, Style K, Bake type a) (COK)**

Document: **CID A-A-20295 Cookies and PKG & QAP**

Approximate Caloric Value Per Serving: **250** Component Classification: **Primary**

Estimated Shelf Life: **36 months at 80°F**

Item Characteristics

Appearance: Not crushed or broken. Exterior color uneven pale to medium golden brown with some surface cracking. Interior crumb pale gold with evenly distributed orange colored chips.

Odor: Sweet, buttery mild orange.

Flavor: Sweet, buttery, mild orange cookie with orange flavored chips.

Texture: Firm and crisp.

Possible Deteriorative Changes

Appearance: Crushed, broken; darkening of the surface and interior crumb.

Odor: Oxidized, rancid, stale, scorched, or other non-typical odor.

Flavor: Oxidized, rancid, stale, scorched, or other non-typical flavor, loss of orange flavor.

Texture: Excessively dry, hard (very firm, hard to bite into), crumbly.

Unique Examination/Test Procedures

Serviceability of the product is considered significantly affected if there are more than ten grams of crumbs, not discernible pieces, per pouch. Serviceability is also significantly affected if there are more than three broken pieces per cookie, for a pouch with one or two cookies, and if more than half the cookies are broken into three pieces, for a pouch with three or more cookies. This product should contain an oxygen scavenger packet. If defects such as oxidized or rancid odors or flavors exist, they are likely due to package failure or the absence of an oxygen scavenger.
